Dear Hiring Manager,

This letter is to express my interest in the Software Engineer position with the Platform team.

End user satisfaction has been paramount at my current position with EDC Corporation. I am responsible for implementing features that make the jobs of our users easier and working closely with clients to provide personalized software support. I have been intimately involved in making sure our clients' expectations are consistently met and exceeded. I know empathizing with the user is a core value at Github as well – that is what I was most excited about when I first saw your opening.

Software utility and user experience have always been passions of mine. Github is superlative at making software accessible and easy to use. I believe my range of skills aligns exceptionally well with Github's needs and goals.

I would love to demonstrate the value I could bring to Github. I can be reached at any time either by email at sidorchukandrew@gmail.com or by phone at 315-729-8131. Thank you for your time and consideration. I look forward to hearing back soon to discuss this opportunity.

Sincerely,

Andrew Sidorchuk
